

Food Valley

Food sector network in Finland

North Savo is the home
of Food Valley

Leverage from
the EU
2014–2020

Regional Council of Pohjois-Savo
supports
a successful region

The Network

Food Valley connects people from science, education, development and industry.

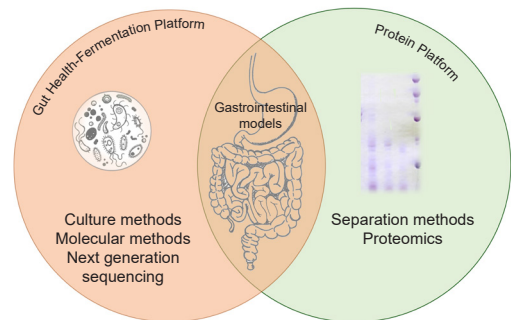

Our Value Chain

Support services of innovative, health promoting food development:

- Test production
- Consumer aspects
- Health benefits

Specialization in:

- Studying of structure, safety, and bioavailability of new protein sources
- Identifying new probiotics and evaluating their stability during industrial process and shelf life
- Testing gut mediated effects of food-stuffs, probiotics, and prebiotics, as well as interactions between the host and gut microbiota
